

Appl. No. 10/663,048  
Amendment dated: July 20, 2005  
Reply to OA of: June 28, 2005

**REMARKS**

The Official Action is a Restriction Requirement in which it is urged that there are two separate and distinct inventions claimed in this application. Applicants elect the Group I invention, drawn to a DNA vaccine containing a tumor-associated gene and a cytokine gene as well as a suitable promoter or translation regulatory sequence in a vector which includes claims 1-18, without traverse. Applicants have canceled claims 19-36 without prejudice or disclaimer and reserve the right to file a divisional application on the non-elected invention at a later time.

In view of the election of the Group I invention, without traverse, an early and favorable action on the merits is now believed to be in order and is most respectfully requested.

Respectfully submitted,

BACON & THOMAS, PLLC
